Motor-Services Hugo Stamp, Inc. (MSHS) is committed to providing the highest quality products and service on every job. To better serve our customers, MSHS Turbocharger reconditioning center is located in a newly renovated 30,000 square foot facility designed to include independent areas for screening/ treatment, repair/reconditioning and assembly.

We are an authorized distributor and service center for Napier, KBB, and MET. MSHS carries the largest Napier inventory in the Americas. We also manage an extensive inventory as well as spare parts and factory-trained service for KBB, ABB and KKK.
