Woodward GmbH, Handwerkstrasse 29, 70565 Stuttgart

SUBJECT

Product discontinue notification for all SG-2D speed governor products

The SG-2D speed governor products have been very important to Woodward. However, due to part obsolescence from electronic manufacturers we need to discontinue the entire SG-2D product line effective by today. Only a limited number of units are still available.

Overview on possible replacement products :

The Woodward products listed below are not a direct replacement for the SG-2D, as they do not provide the same hardware specifications than the original products. Please contact your local account manager for more information.

Potential replacements for the SG-2D HO Series are :

- Woodward DPG2201
- Woodward DPG2223
- Woodward APECS 4500

Potential replacements for the SG-2D LO Series are :

- Woodward 2301A (Does not feature PWM output)
- Woodward 2301D (Does not feature PWM output)
- Woodward APECS 4500

Discontinued SG-2D P/Ns :

- 5448-912 (SG2D-T-LOS)
- 8443-1001 (SG2D-T-HOVM)
- 8443-1002 (SG2D-T-LOVM)
- 8443-1003 (SG2D-T-HOVS)
- 8443-1004 (SG2D-T-LOVS)
- 8443-1005 (SG2D-T-HOS)
- 8443-1006 (SG2D-T-HOM)

Best regards
