

Bergen Engines partners with MSHS

Bergen Engines AS and its US-based subsidiary Bergen Engines Inc. have entered a partnership with the technical service provider MSHS (Motor-Services Hugo Stamp Inc.) to support their marine and land service offerings in North and South America.

This is the first new partnership Bergen Engines enters following the termination of the exclusive distribution agreement with Kongsberg Maritime.

David Miller, Managing Director of Bergen Engines Inc. said: “The Bergen Engines Group is confident this agreement will be an important step to ensure our customers a world-class service regardless of where they operate.”

MSHS has been a trusted engine service provider since 1983 with extensive technical capabilities to service the world’s leading engine brands. With the recent acquisition of Pacific Power Group, MSHS employs more than 500 dedicated spare parts and service maintenance team members across the Americas.

“MSHS is proud to partner with Bergen Engines.”, said David A. Santamaria, CEO of MSHS, “We are excited to align with a world-class brand that shares our commitment to make it easier for our customers to do business.”

The partnership between Bergen Engines and MSHS is effective from 1st of September 2022.

About Bergen Engines

Bergen Engines produces medium-speed liquid and gas fuelled engines and generator sets are supplied to a broad range of land-based, commercial marine, and naval applications. The Bergen name is a watchword for quality and reliability in its field.

The tradition of engineering in Bergen, Norway, dates back to 1855 when the original company Bergen Mekaniske Verksted (BMV) was founded.

In 1946 the company built its first diesel engine and has since commissioned over 7,500 of its iconic liquid and gas fuelled engines. Around half of them are still in operation today, such is the quality and reliability of a “Bergen” engine.

From 1999, Bergen Engines AS was owned by the British aerospace and defence group, Rolls-Royce plc. On 31st December 2021, the company was acquired from Rolls-Royce by the family-owned engineering and industrial group, Langley Holdings plc, and is now part of the Power Solutions division.

About MSHS

Headquartered in Fort Lauderdale, FL, MSHS is a leading independent, third-party MRO services provider for marine, defense/government, and power generation applications. For more information, please visit www.mshs.com.
