

# MACHINERY PROTECTION SYSTEMS

## AS-360

Replacement for: BN 3701 | BN 3500 | BN 1701 | AB 1441 and XM

### KEY FEATURES:

- Arrives Pre-configured (Saving engineering expenses)
- Universal Protection Module - Proximity Probes (various types), Accelerometers, Velometers, Pressure Sensors, Speed Sensors
- Integrated Relays and 4-20mA Outputs
- Multiple Ethernet Ports: Including Modbus
- BNC Buffered Outputs (No Dongles Needed)
- Real-Time Analysis Port
- Built-in "Black Box" Data Recorder
- Smart Backplane Reduces External Wiring (XM)
- Configuration Software Similar to 3500, etc.
- Decades of Future Support

### KEY ADVANTAGES:

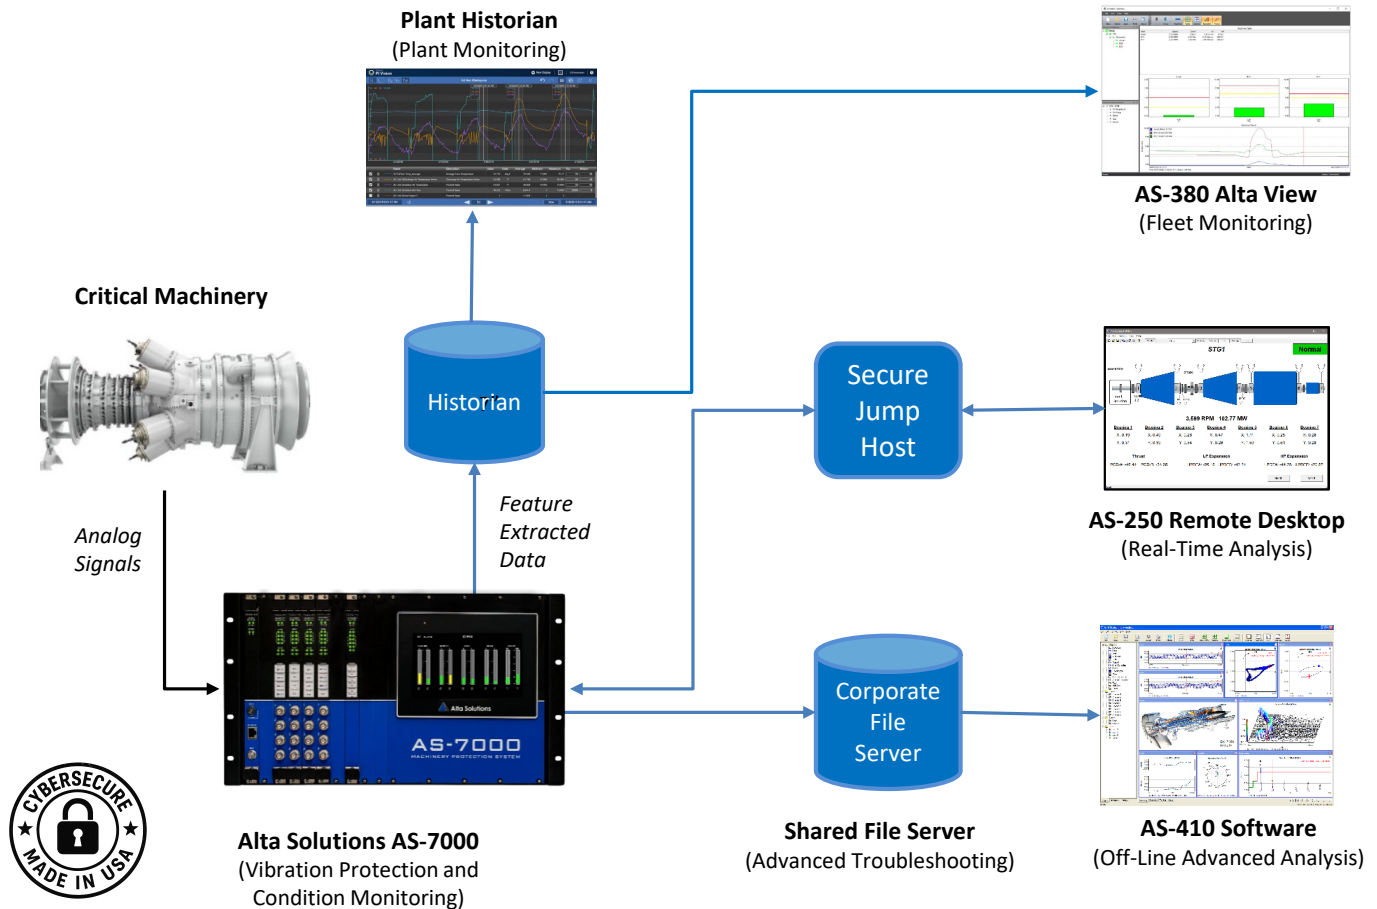

- ✓ **Compact System for Modular System Upgrades**
- ✓ **Real-Time Monitoring & Protection**
- ✓ **Intelligent Alarming & Shutdown**
- ✓ **Flexible System for Increased Performance & Reliability**

## Machinery Protection System

### AS-7000

Replacement for: BN 3500

#### KEY FEATURES:

- Same as AS-360
- Built-in Display
- Same Size as 3500
- Same Connectors as 3500
- Configuration Software Similar to 3500
- Decades of Future Support

#### KEY ADVANTAGES:

- ✓ **Sized to be Drop-In Replacement for BN 3500**
- ✓ **Full Rack API 670 Machinery Protection System**
- ✓ **Machinery Protection & Analysis**
- ✓ **Flexible System for Increased Performance & Reliability**

From Land to Water to National Security, we specialize in designing, selling, and servicing power and propulsion systems **MSHS Pacific Power Group** is here to keep your business and the world moving forward.
